Don't worry about the basics in your solid gold(en) years

People may have different plans for retirement, but everyone wants to enjoy it and no one wants to worry about covering basic expenses. We offer lots of choices to help you create a plan that suits your income needs.

A life annuity can be part of your overall retirement plan. It can offer flexibility and help you prepare for the type of retirement you want.

Choose the type of annuity* that works best for you. We offer the following Money for Life™ annuities:

- **Life annuity** – guaranteed payments for life.
- **Joint life annuity** – guaranteed payments for the lives of you and your joint annuitant.

We also offer term certain annuities:

- **Term certain annuity** – guaranteed payments for a specified period.

Purchase the annuity with any combination of the following registered or non-registered investments:

* Legislation may affect the type of payout annuity you can buy, depending on the source of the money you use to purchase it.

You'd like shuffle board more if it was on water...

and it was called

surfing.

There's nothing wrong with mall-walking...

when your **motorcycle** breaks down.

Would you rather hustle or ride the soul train? Why not do both?

With so many options, you can feel comfortable knowing the payout annuity you select is right for you. You can choose from monthly, quarterly, semi-annual or annual payments, and based on your income needs, select which payment option works best:

- **Level payments** – payments remain the same.
- **Indexed payments** – payments increase each year by a specified percentage to help offset inflation.
- **Reducing payments** – you and your joint annuitant receive a higher income while both of you are alive. If one of you dies, the income reduces.
- **Integrated payments** – you receive larger payments before you receive government retirement benefits. Once those benefits start, payments decrease.

Your payment amount depends on various factors, including age, gender, the amount of money used to buy the annuity, interest rates and the type of annuity you select.

What is the guaranteed period feature?

A guaranteed period for a life annuity ensures your beneficiary receives a death benefit if you die (or in the case of a joint annuity, you and your joint annuitant both die) before the guaranteed period ends.

Depending on the annuity you choose, and the source of the funds used to purchase the policy, the death benefit may be a continuation of income payments or a lump sum. If you live beyond the end of the guaranteed period, we'll make payments for the rest of your life. You choose the length of the guaranteed period when you buy the policy.

For term certain annuities, payments are guaranteed for the term you choose. If you die during the guaranteed term, we'll pay your beneficiary a death benefit.

Sun Life payout annuities offer:

- **Security** – guaranteed payments for life or a period you choose.
- **Simplicity** – no active investment management required on your part. Your income won't be affected by interest rates or the markets.
- **Stability** – peace-of-mind knowing you can depend on regular income.
- **Value** – choose a guaranteed period that's long enough to ensure you and your beneficiaries will get back the money you put in.
