

Update to our Plan Member Services online

When plan members sign into their mysunlife.ca account, there are a number of tools and resources available to help make informed healthcare choices including a Wellness Centre with a Health & Wellness Library and a Health Services Directory among other things. In January, we're revising these items in order to serve plan members better.

What's changing?

We'll be streamlining our online resources to make sure plan members get the latest information, without being overloaded with links. They may notice that Wellness Centre page may look a little different from what they're used to, but they'll still be able to get the information that they're looking for.

How does this affect plan members?

When the change takes place, the plan member's user experience will change both visually and how they navigate the information. This should not disrupt plan members use of the secure Plan Member Services site. .

Please share this [communication](#) with your plan members so that they are aware of the upcoming change.
