

Brightening the mysunlife.ca member experience

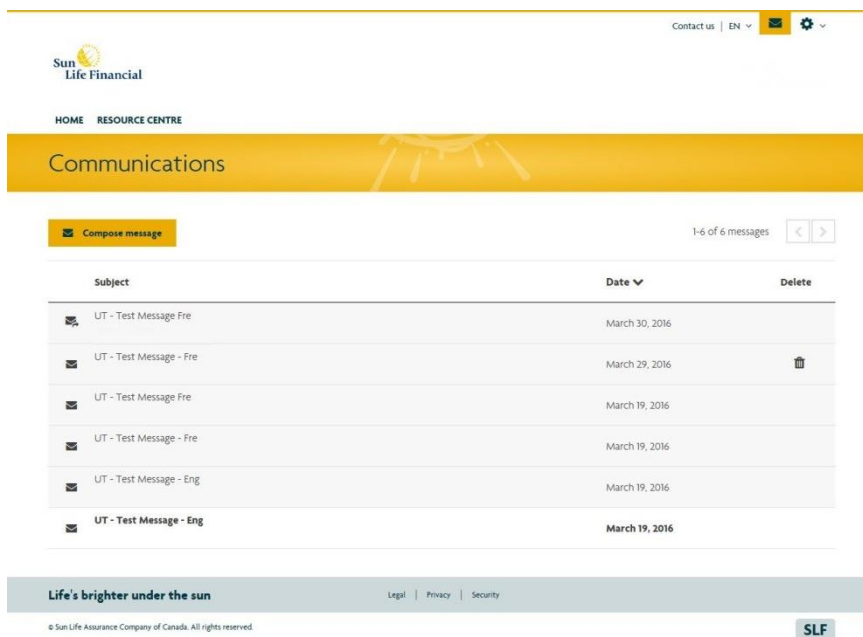

In a continuing effort to make our website easy for plan members to use and understand, we are making a number of enhancements throughout 2016.

What's changing?

The first enhancement affects the link to the secure messages on the site, which is changing to a new mail icon in the top navigation bar. Easily identified as an envelope, plan members will be able to manage their messages.

In addition to the icon, a new look and feel is being introduced within the message centre.
