

Messages on mysunlife.ca have a new home!

We're making it easier for plan members to manage their messages as we continue to improve their web experience.

Later next month, relevant messages that are currently accessible by a link on the left side menu on the [mysunlife.ca](#) home page, also known as the Personal Portfolio Home Page, will be moved to a new Communications location.

This change will allow plan members to:

- Quickly and easily keep track of messages from one central place.
- Review secure messages, as well as other types of messages for additional services and offers.
- Have more options to manage their communications.

To access, plan members sign in to [mysunlife.ca](#) and click the mail icon in the top navigation bar.

We've attached a [plan member communication](#) to this update that you can send to plan members. We will also be promoting this enhancement on [mysunlife.ca](#).
