

## Redesign rollout continues on mysunlife.ca

Over the next few months, several exciting redesign changes will be seen on [mysunlife.ca](http://mysunlife.ca), providing a better digital user experience and making it easier for your employees to do business with us.

### What's changing?

Following the redesign of the [mysunlife.ca](http://mysunlife.ca) Home page earlier this year, we will rollout the redesign to include supporting pages to match the style and user experience of the home page. The upcoming changes will be made to the **Profile** and **Preferences** sections of the site.

Upgrades to [mysunlife.ca](http://mysunlife.ca) will involve simplifying the flow and removing unnecessary pages/steps to improve the overall digital member experience and help plan members to manage their plans with ease.

The first areas where your employees will notice a change are:

- Email and phone options
- The option to go Paperless
- Marketing preferences
- Notifications feature

Please watch for more enhancement announcements through the year as we continue to focus on making it easier for you and your employees to do business with us.
