Support for plan members transitioning out of their workplace benefits plan

Recent pandemic-related events have led to changes in many workplaces. This includes the need to lay off employees, sometimes on a permanent basis.

If you're considering a workforce reduction, we can help support you and your employees when making this transition.

Options for access to coverage

Many departing plan members have questions about workplace health coverage. We encourage you to share this [postcard](#) with them. It gives them the information they need to contact us right away. We'll listen to their needs, discuss their options for continuing coverage, and put the right solution in place.

If you have any questions about post-termination benefits coverage for your plan members, please contact us. We're here to help.

Group Benefits are provided by Sun Life Assurance Company of Canada, a member of the Sun Life group of companies.
